**ANNOUNCEMENT: Chris Brown Hired as Centralized Point of Access Manager**

East Metro Youth Services is pleased to announce the hiring of Chris Brown as Centralized Point of Access Manager, effective immediately. Some of Chris' responsibilities include planning, coordinating and implementing the successful launch of the CPA system. Once CPA is fully operational, he will be responsible for system coordination, ensuring timely and professional responses for those who need access to infant, child and adolescent mental health services. This includes training and supervision of the CPA workers, and working with Toronto's core service providers.

Chris holds his Masters of Social Work. As an EMYS Clinical Manager Chris has had oversight of our intake and 'whatever it takes' (WIT) programs. This expertise and experience has informed his proactive involvement in the development of CPA and we are confident in his ability to provide the operational leadership we need to roll out this important service on behalf of our sector.

Please join us in welcoming Chris into his new role.
